Susan Goldman Presents
Inaugural LRDC Distinguished Alumni Talk

Susan R. Goldman has been named the recipient of the inaugural LRDC Distinguished Alumni Award. Goldman will deliver her Distinguished Alumni Lecture, “Assessing Multiple Source Comprehension: Implications for Instruction and Theory,” at 3:00 pm, May 3, 2011, in LRDC’s Glaser Auditorium. A reception follows the talk.

Susan R. Goldman is a Distinguished Professor of Liberal Arts and Sciences, Psychology, and Education at the University of Illinois at Chicago (UIC) and co director of UIC’s Learning Sciences Research Institute.

Goldman’s research focuses on reading, digital literacy, and discourse. Work with her colleagues in this area won UIC one of the largest grants ever awarded to the campus. This research program, “Reading for Understanding Across Grades 6 through 12: Evidence-based Argumentation for Disciplinary Learning,” is developing ways to impact reading instruction and achievement across the kindergarten through 12th grade range.

The LRDC Distinguished Alumni Award was created to recognize the accomplishments of graduate students who earned their PhDs while conducting research at the LRDC. Read more about Susan Goldman and the abstract of her talk, at the LRDC website.
