

Curriculum Vitae

May 2, 2023

Charles A. Perfetti

Home:

337 Morewood Avenue
Pittsburgh, PA 15213
(412) 687-0503

Office:

University of Pittsburgh
LRDC 528 Murdoch Building
Pittsburgh, PA 15260
(412) 624-7071
perfetti@pitt.edu

Education

University of Michigan, 1962-1967. PhD in Psychology (Experimental), June 1967.
University of Illinois, 1958-1962. B.S. with honors in Psychology, 1962. Minors:
Mathematics & History.

Academic Positions

University of Pittsburgh

2008- Director, Learning Research and Development Center, University of Pittsburgh

2001- Distinguished University Professor of Psychology, University of Pittsburgh

2000 – 2008 Associate Director, Learning Research & Development Center, University of Pittsburgh.

1999: Interim Chair, Department of Linguistics

1992-1998: Chair, Department of Psychology

1984- Professor of Psychology and Linguistics

1983-1992: Chair, Program in Learning, Development & Cognition; Chair, Graduate Program in Cognitive Psychology

1967- Research Scientist to Senior Scientist, Learning Research and Development Center.

1967-1983: University of Pittsburgh, Assistant Professor to Professor of Psychology.

University of Michigan

1967 - Lecturer, Department of Psychology

Visiting and Affiliated Positions

Distinguished Chair Professor, National Taiwan Normal University, 2016-2017.

Pittsburgh Science of Learning Center, Co-Director, 2007-2016.

University of Sussex, Leverhulme Visiting Research Fellow, Fall 2003,

Center for the Neural Basis of Cognition, Faculty, 2000-

University of Auckland, New Zealand, 1996. Honorary Visiting Professor, Department of Psychology,

Netherlands Institute for Advanced Studies, Wasenaar, Fellow, 1988.

Max Planck Institut fur Psycholinguistik, Nijmegen, the Netherlands, Visiting Scholar, 1982.

Honors

- 2017 Federation of Associations in Behavioral & Brain Sciences (FABBS) "In Honor Of..." program for "important and lasting contributions to the sciences of mind, brain, and behavior."
- 2017 American Educational Research Association SIG: Research in Reading and Literacy Distinguished Scholar Award, April 2017.
- 2014 Distinguished Scientific Contribution Award, Society for Text and Discourse, 2014
- 2011 Festschrift Symposium in honor of Charles Perfetti, Poitiers. (Publication of Festschrift. *Reading: from words to multiple texts*. A. Britt, S. Goldman & J-F Rouet, Eds. Routledge, 2013.)
- 2004 Distinguished Scientific Contribution Award, Society for the Scientific Study of Reading Amsterdam, Netherlands
- 2003 Leverhulme Fellow, Sussex University
- 2001 Named Distinguished University Professor, University of Pittsburgh
- 2000 Chancellor's Distinguished Research Award, University of Pittsburgh
- 1988 Fellow, Netherlands Institute for Advanced Studies in the Behavioral Sciences

Selected Professional and Research-Related Appointments

Representative Institutional Boards and Panels

- English Language Arts & Literacy Lead. Evaluation of Common-core aligned next generation assessments. Thomas B. Fordham Institute, 2015.
- Board of Advisors, Behavioral Science Institute, Radboud University Nijmegen, 2006-2008
- Institute of Education Sciences READ Panel, *Where We Are in the Process*, 2004
- Board of Directors, Joint Laboratories for Language and Cognitive Neuroscience, Department of Linguistics, University of Hong Kong, 2002-
- National Science Foundation, Cognition & Perception Review Panel, 2000-2003
- National Academy of Sciences Panel on *The Prevention of Reading Difficulties in Children*, 1995-1998
- Advisory Board, *Joint Institute for Chinese Language and Cognitive Science*, 1997-
- Human Capital Initiative Committee, American Psychological Society, 1992-1997
- National Science Foundation, Linguistics Advisory Panel, 1995
- NICHD Study Panel, 1985-1989

Professional Societies

President-elect, Society for the Scientific Study of Reading, 1998; **President**, 2000-2001; Past-President, 2002-2003.

Fellow, American Psychological Association; American Psychological Society; Member, Psychonomic Society; American Educational Research Association; Linguistic Society of America; Society for the Scientific Study of Reading

Editorial Boards (Past & Current)

Journal of Neurolinguistics, Journal of Experimental Psychology: Learning, Memory and Cognition, Discourse Processes, Journal of Memory and Language, Written Language and Literacy, Child Development, Journal of Experimental Child Psychology, Reading Research Quarterly, Journal of Educational Psychology

Publications**Books**

- Verhoeven, L., Perfetti, C. A., & Pugh, K. (Eds.). (2019). *Developmental dyslexia across languages and writing systems*. Cambridge University Press.

Some Invited Lectures and Keynote Addresses since 2005

2019

Is Dyslexia the same across languages and writing systems? Invited Keynote address to the International Workshop on Reading and Developmental Dyslexia. San Sebastian, Spain. October 2019.

3500 years of reading and 111 years of reading science. Keynote address to celebrate the foundation of the Macquarie University Centre for Reading. Sydney, Australia. November 2019

2018

Word-to-text Integration and structure building within the Reading Systems Framework. Invited Symposium presentation to joint session of Society for Text and Discourse and Society for Scientific Studies of Reading, July 2018

2017

The Quest for universal in reading: Writing Systems, Languages and the Brain. Award address to American Educational Research Association SIG: Research in Reading and Literacy Distinguished Scholar Award, April 2017.

2016

The Search for the Universal in Reading: Writing systems, Languages, and the Brain. Invited Keynote address National Taiwan Normal University, June 2016.

2015

Integrative processes in reading: Connecting the discourse level with the word level. Opening lecture to European Summer School on Reading, Egmond an Zee, Netherlands, August.
Word-Based Integration Processes in Reading Comprehension. Florida Center for Reading Research, Florida State University. February.

2014

How Learning Science and Education can be Linked through Technology. Lecture to the National Engineering Research Center on e-Learning, Central China Normal University, Wuhan, December.

Decomposing Fluent Reading Comprehension: Words, Texts, Mental Models & their Interplay. Invited lecture to Workshop on Reading Fluency. Radboud University, Nijmegen, September.

Reading Comprehension: From words to multiple texts and back again. Distinguished Scientific Award Address, Society for Text and Discourse, Chicago. August.

Reading comprehension skill: Why word processing is central. Invited keynote address to SAFRA conference on literacy. Haifa, Israel, July.

2013

Pressure Points in Reading Comprehension: Cherchez les Mots. Communication Sciences Research Center, Cincinnati Children's Research Center, June.

Revisiting Lexical Quality: Theoretical Perspectives and Empirical

Generalizations. Society for the Scientific Study of Reading, (SSSR), Hong Kong, July.

Sustainable Vocabulary Development throughout the Primary Grades. The European Association for Research on Learning and Instruction (EARLI) Conference in Munich, Germany, August.

Neural Markers of Literacy Research in Adults Keynote. Nijmegen, The Netherlands, ERP Conference, September-October.

2012

Beyond Decoding and Dyslexia in the Neuroscience of Reading. Seventh Annual Eleanor Saffran Cognitive Neuroscience Conference, Philadelphia, September.
Lexical Quality Revisited: Recent Research & Continuing Issues. Sixth European Graduate School on Literacy Acquisition, Egmond an Zee, The Netherlands, August.
Comprehending Texts as Part of Comprehending Words and Vice-Versa. Keynote Address to Society for Text & Discourse Conference held in conjunction with the Society for the Scientific Study of Reading, Montreal. July.

2011

Words in Comprehension, Comprehension in Words. Keynote address to (ELDEL) Enhancing Literacy Development in European Languages, Prague, June.
Reading Neuroscience. Invited talk, American Educational Research Association, New Orleans, April.

2010

Lexical Quality: Word Experience and Reading Ability. Invited lecture to University of Hong Kong, February.
Reading Processes and Reading Problems: Progress toward a Universal Reading Science. Invited lecture to the Dyslexia Foundation's, Extraordinary Brain Symposium, Taipei, February.
The New Universal Science of Reading. Keynote address to Research on Reading Chinese and Related Asian Languages, University of Toronto, July.
Words and Comprehension. Invited talk to Nijmegen Radboud University, November.
Building and Using Lexical Quality in Reading. Keynote address to Conference on Literacy, Lisbon University, October.
Building and Using Lexical Quality in Reading. Colloquium, Georgia State University, October.

2009

Universal Reading Science: Foundations and Variations. Invited keynote address: Norman Geschwind Memorial Lecture, International Dyslexia Association, November.
Invited lectures at University of Oslo, October 2009.
Fourth Annual IES Research Conference. Invited address. Reducing the Complexities of Reading Comprehension: A Simplifying Framework. Washington DC, June 7-9.
University of Minnesota Center for Cognitive Sciences Student Research Day. Invited lecture. Word learning episodes. Minneapolis. March 26-27.
Eastern Psychological Association. Keynote address. Advances in Reading Science. Pittsburgh, March 6.
University of Florida Lecture. Word Learning Episodes (and their Consequences for Word Knowledge and Reading Skill). Gainesville, FL, February 5-6.

2008

NSF Science Learning Centers Annual Meeting. Word learning Episodes. Washington DC, October 15-17.

Fifth European Graduate School on Literacy Acquisition. Keynote lecture. WORDS. The Netherlands, August 22-29.

Symposium in honor of Donald Shankweiler at Society for the Scientific Study of Reading. Variation in Lexical Quality: Implications for the Phonological Deficit Hypothesis. Asheville, NC, July 10-12.

2007

Beyond decoding: The centrality of word knowledge to reading skill. Invited Jeanne Chall Lecture, Harvard University, October 2007.

From word reading to comprehension. Invited lecture, Reich School of Education, Appalachian State University, November, 2007.

Reading comprehension Is word-by-word. Invited address to workshop on reading comprehension, Oxford University, April, 2007.

Text comprehension is word-by-word (and word learning is text-by-text). Invited lecture to workshop on Brain mechanisms and cognitive processes in the comprehension of discourse. University of Leiden, March, 2007.

Reading in Two Writing Systems: Accommodation and Assimilation of the Brain's Reading Network. Invited keynote address to German Linguistics Society, Siegen. (not delivered because of illness), February, 2007.

2006

Reading ability: The Lexical Quality Hypothesis. Distinguished research award address, Society for the Scientific Study of Reading, Vancouver, July, 2006.

2005

How the mind meets the brain in literacy: New perspectives from reading science. National Reading Conference, plenary keynote address. Miami, FL, December.

The accommodation of the brain's reading network to writing system variation. Invited presentation to the Conference on Brain, Language, and Cognition. University of Minnesota, Center for Cognitive Sciences, October, 2005.

Reading word-by-word: Text integration processes exposed by Event Related Potentials. Invited lecture, European Summer School on Reading, Edmond an Zee, Netherlands, August, 2005.

Brain Behavior Relations in Reading: Universal Constraints and Writing System Variations. Invited address to the Tagung experimentell arbeitender Psychologen (Congress of Experimental Psychology), Regensburg, Germany, April, 2005.

Summary of Research Contributions

My sustaining research interest is the nature of reading and language, with a specific focus in written language. Most of my publications report research on reading, spanning topics in word identification, the role of phonology, comparisons across languages and writing systems, sentence and text comprehension and individual differences in reading ability. My research uses experimental behavioral methods, Event Related Potentials (ERPs) and—through collaboration—fMRI and MEG. I collaborate in educational interventions, with a focus on children's learning of vocabulary and adult foreign language reading.

My research has involved training of and collaboration with graduate students, post-doctoral trainees and collaborators. I have mentored 27 pre-doctoral trainees (including 5 currently) and 20 post-docs in my laboratory. Nineteen of the 22 students who earned PhDs and all of the post-docs are currently in positions of research and/or teaching. Most are faculty at research universities (Northeastern University, Northern Illinois, University of Illinois, Chicago, University of Washington, University of Maryland, Northwestern University, University of Pittsburgh, University of Hong Kong, Georgia State University, University of Amsterdam), or have non-faculty appointments in other research settings (Haskins Labs, NIH, McMaster University).

My most substantial research contributions are summarized below with 3-6 significant publications representing each area.

1. *The components of reading ability.* My early research on this topic contributed to identifying the components of reading skill in children. Three particular contributions were evidence linking reading comprehension skill to word identification speed, evidence that naming speed differences were specifically localized within context-independent lexical retrieval from long term memory (and decoding processes), and evidence that more skilled comprehenders retained material within a sentence in verbatim form better than less skilled readers. This was of importance because of prevailing view that comprehension differences were mainly about higher-level processes. Some of my earlier work on this topic was the basis of a book *Reading Ability* (Oxford University Press, 1985), but was also published in peer-review journals with graduate student co-authors.

 - b. Perfetti, C. A., & Goldman, S. R. (1976). Discourse memory and reading comprehension skill. *Journal of Verbal Learning and Verbal Behavior*, 14, 33-42.
 - c. Perfetti, C. A., Finger, E., & Hogaboam, T. (1978). Sources of vocalization latency differences between skilled and less skilled young readers. *Journal of Educational Psychology*, 70, 730-739.
 - d. Hogaboam, T., & Perfetti, C. A. (1978). Reading skill and the role of verbal experience in decoding. *Journal of Educational Psychology*, 70, 717-729.
2. *The role of phonology in reading.* At a time when it was widely assumed that reading silently for meaning was accomplished without phonology, my experiments, using novel paradigms, demonstrated specific phonological effects in silent reading for meaning. Most significant was evidence for (sublexical) phonemic activation prior to single word identification. I was head of lab in collaboration with graduate students in these projects. Included in this category is our evidence that although phonology is important in learning to read, phonological awareness is reciprocally related to literacy development.
 - a. Perfetti, C. A., Beck, I., Bell, L., & Hughes, C. (1987). Phonemic knowledge and learning to read are reciprocal: A longitudinal study of first grade children. *Merrill-Palmer Quarterly*, 33(3), 283-319.
 - b. McCutchen, D., & Perfetti, C. A. (1982). The visual tongue-twister effect: Phonological activation in silent reading. *Journal of Verbal Learning and Verbal Behavior*, 21, 672-687.

 - d. Berent, I., & Perfetti, C. A. (1995). A rose is a REEZ: The two-cycles model of phonology assembly in English. *Psychological Review, 102*, 146-184. (Based on Berent's dissertation.)
3. *Comprehension and learning from multiple texts.* I led a research group that was among the first to extend theories of comprehension to the question of how readers represent, understand, and use information from multiple text sources. The theory appears in a highly cited book chapter, *Toward a Theory of Documents Representation* (Perfetti, Rouet, & Britt in In H. van Oostendorp & S. Goldman (Eds. 1999), *The construction of mental representations during reading* (pp. 99-122). Mahwah, NJ: Erlbaum. My first studies on these issues were published in a monograph, Perfetti, C. A., Britt, M. A., & Georgi, M. (1995). *Text-based learning and reasoning: Studies in history*. Hillsdale, NJ: Erlbaum.
 - a. Rouet, J.-F., Britt, M. A., Mason, R. A., & Perfetti, C. A. (1996). Using multiple sources of evidence to reason about history. *Journal of Educational Psychology, 88*, 478-493.
 - b. Rouet, J.-F., Favart, M., Britt, M. A., & Perfetti, C. A. (1997). Studying and using multiple documents in history: Effects of discipline expertise. *Cognition and Instruction, 15*, 85-106.

4. *Comparative reading across writing systems.* At a time when there was little published work on reading in nonalphabetic languages, I began to examine reading in Chinese, with Chinese collaborators, using behavioral experiments that, contrary to widespread assumptions, established the use of phonology in character and word processing in Chinese. This led to a theoretical model that placed Chinese and alphabetic reading in a single lexical constituency model.

 - c. Perfetti, C. A., & Tan, L. H. (1998). The time course of graphic, phonological, and semantic activation in Chinese character identification. *Journal of Experimental Psychology: Learning, Memory, and Cognition, 24*, 101-118.
 - d. Perfetti, C.A., Liu, Y., & Tan, L.H. (2005). The Lexical Constituency Model: Some implications of research on Chinese for general theories of reading. *Psychological Review, 12*(11), 43-59.
5. *The neural bases of reading across writing systems.* I extended my research on cross-language comparisons to include both fMRI and ERP studies of Chinese and English reading, including neural effects of learning to read Chinese. These studies contribute to understanding the universal nature of the brain's reading network as well as to the influence of language and writing system factors. My role has been head of lab in some projects and collaborator in others (with Li-Hai Tan, my former post-doc as head of lab.)

6. *Foreign language instruction.* Here the general question is how to make foreign language learning more effective by considering specific properties of the language, the writing system, and the learner. Much of this work focused on theory-based interventions to support learning to read Chinese as a foreign language. With collaborators and graduate students, my research emphasized the important role of orthographic learning when the writing system is unfamiliar and organized along different principles.
- a. Xu, Y., Chang, L. Y. & Perfetti, C. A. (2013). The effect of radical-based grouping in character learning in Chinese as a foreign language. *Modern Language Journal*.
 - b. Xu, Y., Chang, L. Y., Zhang, J., & Perfetti, C. A. (2013). Reading, writing, and animation in character learning in Chinese as a foreign language. *Foreign Language Annals*, 46(3), 423-444
 - c. Guan, C. Q., Liu, Y., Chan, D. H. L., Ye, F., & Perfetti, C. A. (2011). Writing strengthens orthography and alphabetic-coding strengthens phonology in learning to read Chinese. *Journal of Educational Psychology*, 103(3), 509-522.
 - d. Elgort, I., Perfetti, C. A., Rickles, B., & Stafura, J. (2015). Contextual learning of L2 word meanings: Second language proficiency modulates behavioural and ERP indicators of learning. *Language, Cognition, and Neuroscience*, 30(5), 506-528. DOI: 10.1080/23273798.2014.942673.
 - e. Chang, L. Y., Xu, Y., Perfetti, C. A., Zhang, J., & Chen, H. C. (in press). Supporting orthographic learning at the beginning stage of learning to read Chinese as a second language. *International Journal of Disability Development and Education*.
7. *The Lexical Basis of Reading Skill.* This work could be considered an updating of my earlier research on children's reading ability. It focuses more on adult reading, is centered on the role of word knowledge, and uses ERPs as an indicator of 1) implicit word form and meaning knowledge 2) word learning and 3) the role of word knowledge (and individual differences in this knowledge) in reading comprehension.
- a. *Theoretical perspectives*

 - iv. Frishkoff, G. A., Perfetti, C. A., & Westbury, C. (2009). ERP measures of partial semantic knowledge: Left temporal indices of skill differences and lexical quality. *Biological Psychology*, 80, 130-147.
 - v. Frishkoff, G. A., Perfetti, C. A., & Collins-Thompson, K. (2010). Lexical quality in the brain: ERP evidence for robust word learning from context. *Developmental Neuropsychology*, 35(4), 1-28.
 - vi. Harris, L. N., Perfetti, C. A., & Rickles, B. B. (2014). Error-related negativities during spelling judgments expose orthographic knowledge. *Neuropsychologia*, 54, 112-128.
- c. *Word-to-text integration*. Research on text comprehension has emphasized global properties of comprehension (e.g., situational mental models, text structure and readers' goals). In WTI research, we focus on the processes that bind word reading to text understanding across sentence boundaries, using ERP measures. This work provides evidence for immediate binding processes using both memory and predictive processes.

- NSF, September 2004 - 2010. Pittsburgh Science Learning Center: Studying Robust Learning with Learning Experiments in Real Classrooms, Co-PI. (PI, Ken Koedinger, CMU) Award No. 0354420. \$14,898,917
- Institute of Education Sciences, August 2003 – 2007. Reader-Specific Lexical Practice for Improved Reading Comprehension (Award No. R305G030123). (PI, Jamie Callan, CMU), \$253,180

Administrative Experience

Chair, PhD Program in Cognitive Psychology. For nine years, I served as Chair of the PhD program in Cognitive Psychology. Originally, this program was an umbrella for three different training areas, the largest in the Department of Psychology. One of my efforts was to lead the programs into more coherent organization, including the establishment of a new program in Developmental Psychology. I then directed the Cognitive Program, which typically had 20-25 PhD students and 8-10 faculty. Among other things, I directed the development of a modern course structure (a system of modules and seminars) that was retained for over 20 years.

Chair, Department of Psychology. I was selected twice by the faculty and appointed by the Dean, serving 6 years as chair of a department of 36 tenure-stream faculty (and several non-tenure stream faculty) and around 100 PhD students. As Chair, I worked to develop cognitive neuroscience in the Department, to promote increased attention to undergraduate education, to lift faculty morale, and to facilitate the establishment of a new training program in Health Psychology, an initiative undertaken by faculty in this area. I created the position of Director of Undergraduate Programs in the Department and kept the position of Director of Graduate Programs myself. In this role, I carried out annual graduate student evaluations of faculty and courses, promoted graduate student awards and ceremonies, controlled the allocation of Teaching Assistantships and Fellowships, among other things. I established good working relationships with Deans, with the Directors of the Center for the Neural Basis of Cognition, and other units in the University.

Executive Committees. I was elected regularly to two different executive committees, one in the Department of Psychology and the other in the Learning Research and Development Center. Each committee involves policy making and advising for administrators.

Associate Director, Learning Research & Development Center. From 2000 through August 2008, I served as Associate Director of the Learning Research and Development Center. My activities were mainly institution building, especially faculty recruitment, and activities in support of the Director, including preparation of reports to the Provost and

faculty award nominations.

Director, Learning Research & Development Center. From September 1, 2008, I have directed this University-based multidisciplinary research center in its mission to study cognitive, neurocognitive, social and educational aspects of learning. The Center houses a staff of around 160, including around 30 tenure stream faculty, and around 60 graduate students and post-docs. The Director reports to the Provost of the University.

Teaching and Mentoring

Undergraduate: Introductory Psychology, Cognitive Processes, Language Development, Psycholinguistics, Psychology of Reading

Graduate: Language and Reading; Cognitive Processes, Psycholinguistics, Cognitive Research Methods, Cross-disciplinary seminars in cognitive science (philosophy, linguistics, neuroscience)

Some former PhD students: Cherin Elias, Thomas Hogaboam, Susan Goldman (University of Illinois, Chicago); Beverly Adams (University of Virginia), Iris Berent (Northeastern University), M. Anne Britt (Northern Illinois University), Julia Kushner (formerly, Penn State University), Maureen Marron (formerly, University of Iowa), M. Anne Britt (Northern Illinois U.), Deborah McCutchen (University of Washington), Sulan Zhang (Monterey Technologies, California), Hui Yang (Beijing Normal University), Benjamin Xu (NIH), Valerie Shalin (Wright State), Rebecca Sandak (Haskins Laboratories; deceased), Julie Van Dyke (Haskins Laboratories), Suzy Scherf (Penn State University), Lesley Hart (Yale University School of Medicine), Nicole Landi (Haskins Laboratory; University of Connecticut), Robert Goldberg (University of Pennsylvania); Donald Bolger (University of Maryland); Jessica Nelson Taylor (Google). Michal Balass (Towson State University); Derek Chang (Chinese University of Hong Kong); Lindsay Harris (Northern Illinois University); Wendy (Li-Yun) Chang (National Taiwan Normal University); Adeetee Bhide (Amazon); Joe Stafura, (Thrive Internet services). Regina Calloway (University of Maryland), Xiaoping Fang (University of Toronto).

Current PhD Students: Lin Zhou; WeiQi Wang

Post-Docs and current affiliations: Agnes Lam (University of Hong Kong), Dieter Haenggi (position unknown), James Booth (Northwestern University), Peter Foltz (New Mexico State U.), J-F. Rouet (University of Poitiers), Bruce McCandliss (Stanford), Erik Reichle (University of Southampton), Li Hai Tan (University of Hong Kong), Hye Kyung Yoon (Inje University), Natasha Tokowicz (University of Pittsburgh), Michael Fender (California State University, Long Beach), Chin-Lung Yang (City University of Hong Kong), Ying Liu (University of Toledo), Min Wang (University of Maryland), Nel de Jong (Vrije Universiteit Amsterdam); Gwen Frishkoff (Georgia State University), Qun (Connie) Guan (University of Science and Technology Beijing), Suzanne Adlof (University of South Carolina), Fan Cao (Michigan State University), Laura Halderman (Educational Testing Service), Juan Zhang (University of Macau), Zhan (Jan) Wang (The Chinese University of Hong Kong); Elizabeth Hirshorn (SUNY New Paltz); Anne Helder, Leiden University; Patrick Plummer, Howard university

Recent Visiting scholars: Bao Guo, (Beijing Normal University); Femke Scheltinga (University of Amsterdam, 2011), Irena Elgort (Victoria University Wellington, 2011); Kim Cordewener (Radboud University Nijmegen, 2013), Lucilene Bender de Sousa, (Unisinos, 2013), Adriana Reiss de Karnal (Unisinos, 2013), Caihua Xu (Beijing University, 2013-4), Lin

Chen (Sun Yat-sen University, 2014), Anne Helder (Leiden University, 2014, 2018), Ganlin Xia (Shanghai University, 2015-6), Chen Lin (Sun Yat Sen University, 2015); Jiexin Gu (Jiangsu Normal University, 2015-6); Wenguang He (Qafu Normal University, 2016-2017); Claudia Finger-Kratochvil (Universidade Federal da Fronteira Sul, 2017-2018)
